

# First Workshop on Critical Cybersecurity Education (WCCE-2018) @ FIU

February 9th and 10th, 2018

Florida Center for  
**Cybersecurity**  
at the University of South Florida

**Peter J. Clarke (FIU)**

2/9/2018

# Outline

- Welcome – Director of SCIS @ FIU,  
Dr. Sitharama Iyengar
- Introduction of Participants
- Workshop Objectives
- Workshop Outcomes
- Workshop Materials
- Organizing Team
- Acknowledgements

# Workshop Specific Objectives

1. Identify the cybersecurity concepts, skills and toolsets that are considered to be critical for a large cross-section of students.
2. Develop learning content for the critical cybersecurity knowledge identified.
3. Form a learning community that can contribute cybersecurity learning materials to a cyberlearning environment (SEP-CyLE) to support pedagogy.

# Workshop Outcomes

1. Knowledge of a common core of cybersecurity concepts that undergraduate students should be exposed to.
2. Access the cybersecurity learning materials in SEP-CyLE and be able to use the features of SEP-CyLE to support pedagogy.
3. Be part of a community that uses and contributes to the development of cybersecurity learning materials.

# Workshop Materials

## Folders:

- Wireless and PC access information
- Program (briefly review)
- Presenters' evaluation forms (Friday and Saturday)
- Workshop evaluation form
- FIU Map
- Participant list

# WCCE Organizing Team

- Ingrid Buckley – FGCU (Lead PI on FC2 Grant)
- Peter Clarke – FIU (PI)
- Bogdan Carbunar – FIU (Co-PI)
- Francisco Ortega – FIU (Co-PI)
- Nicholas Torres – FIU (RA)
- Neha Kasturia - FIU (RA)
- Raymond Chang-lau – FIU (SEP-CyLE Lead Developer)
- Hamilton Chevez - FIU (SEP-CyLE Developer)

# Acknowledgements

- School of Computing and Information Sciences, Florida International University
- U.A. Whitaker College of Engineering, Florida Gulf Coast University
- Department of Homeland Security
- The Florida Center for Cybersecurity (FC2)  
<http://thefc2.org/>
- NSF IUSE grants: DUE-1525112
